NEWS RELEASE:

PN 10612, 1467 & 1489: 2005-2010 Mustang Rear Window Louver.

We are pleased to announce there is no charge on the 2010 Mustang Rear Window Louver in either the Aluminum or the ABS part numbers.

But, there will be changes for 2010 on our Side Window Louvers and Scoop, Side Quarter Scoop, Hood Scoops and the Chin Spoiler; Please watch for the future announcements on these new part numbers.

These aluminum rear window louvers will provide protection from the sun and keep you cooler on those hot summer days, plus offer privacy without compromising visibility. An ABS louver is also available in a UV resistant textured black or a smooth finish that can be painted. Ready-to-install, "no drill" stainless mounting plates allow for a flush-fit and the louver is still easily removed to clean the glass, when needed. Our applications go back to the mid-1960s for the Mustangs, Camaros, Challengers and other cars, even trucks.
